

Every venture starts as a wireframe.

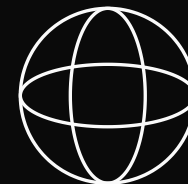

A Dutch technology studio and investment holding.

SECTION

01

What we do

We build software, advise on technology strategy and invest in founders.

DreamOne Holding B.V. is a Dutch technology studio and investment holding, independently held.

We invest in founders building applied AI, enterprise and consumer software.

- **Consulting.** Technology strategy and advisory.
- **Software.** Products developed and published under our own brands.
- **Financing.** Long-term capital into software and technology businesses.
